Aboard our premium and modern small ship, uncover your inner naturalist and follow in Charles Darwin's footsteps, with savings of up to \$6,000 per cabin on select expeditions. **Book early for the best savings!**

The remote Galápagos Islands are a unique example of pristine nature, giving us an insight into the very processes of life on Earth. While maintaining a respectable distance, you'll be able to get close to the animals, whether they be Galápagos sea lions, Blue-footed boobies, land iguanas, Frigate birds or other members of the 'Big 15' iconic species.

Science Corner

Learn with fellow travellers in the Science Corner, which includes a glass cabinet, a microscope and a bone clone collection. A perfect learning zone for science activities.

Modern Luxury

Travel in comfort with up to 90 fellow explorers, in stylish ensuite cabins with ample space for each and every guest.

The Sustainable Choice

With carbon-neutral operations, MS Santa Cruz II is environmentally sustainable and always socially conscious with the local communities you'll visit.

Featured Itineraries

In Darwin's Footsteps

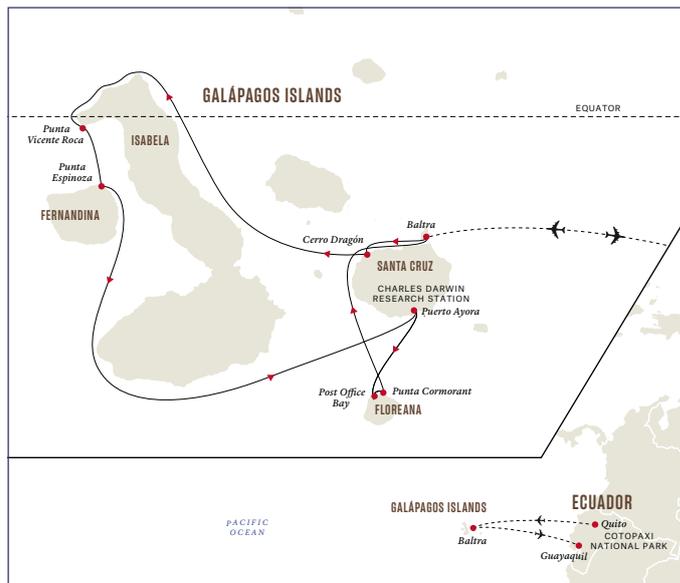

MS Santa Cruz II

9 Days | 28 departures in 2023/24

Was ~~\$10,443~~ per person, twin share

Now **\$7,443** per person, twin share

We offer you unique expedition cruises to sail in the footsteps of Darwin. Our Eastern itinerary explores San Cristóbal, the first of the four Galápagos islands visited by Darwin in 1835, and the easternmost landmass of the archipelago. We will also call at Mosquera Islet, see the land iguanas of Santa Fé and South Plaza, the giant turtles of Santa Cruz, and the amazing bird colonies of Española, Eden Islet and North Seymour. The landings cover a wide array of ecosystems, spectacular landscapes, and great opportunities for wildlife watching, including most of the iconic animals of Galápagos.

Iconic Wildlife & Sublime Scenery

MS Santa Cruz II

7 Days | 29 departures 2023/24

Was ~~\$8,165~~ per person, twin share

Now **\$6,165** per person, twin share

The Galápagos Islands are famed for their association with the evolutionary theorist Charles Darwin. Our western itinerary calls at Isabela and Floreana, two of the four islands visited by the famous naturalist; at the volcanic island of Fernandina; and the centrally located Santa Cruz island. The landings take in a wide array of ecosystems, picturesque landscapes, and offer great opportunities for seeing wildlife such as sea lions, turtles, marine iguanas, giant tortoises, flamingos, Nazca and Red-footed boobies, and iconic Darwin's finches.
